

Why Choose Loyalist?

Reasons #1, #2,
and #8:

1. it's about you.

I am very excited. I've known for quite a while that photo-journalism is the career for me. Originally I chose Loyalist strictly because of their program. However, after seeing the campus and speaking with two of the professors from the Photojournalism program, as well as a few students, I know that Loyalist offers everything I want in a college — a friendly atmosphere, small, tight-knit programs, and a beautiful campus. Knowing that my professors will be able to offer personalized advice and guidance when I approach them is a big plus for me. After taking a tour of both the school and residence buildings I realized that Loyalist has one of the most friendly atmospheres I've ever seen in a college or university.

2. AMAZING faculty

I really feel that our Loyalist faculty is working with the community to stay current with the needs of business and industry — especially with projects like the CO2 Extraction Lab. When you see your professors who have their Masters and PhDs so excited about opportunities like this that they spend hours of their personal time making these projects happen, you know that you are involved with something amazing. I feel very fortunate to have had the opportunity to study with professors who are so passionate about teaching and so committed to their students.

CHAD DUFF
3rd year Environmental Technology Student

When I graduated from the University of Toronto, I had a Bachelor of Arts degree in English. When I graduated from Loyalist College, I had a print journalism diploma — and a job. My Loyalist years provided me with a solid work experience and a profound appreciation for the impact a newspaper can have on a community. The teachers always had time for students who wanted to learn more. I was one of those students and truly appreciate the extra time and effort that my professors gave me. The College keeps in touch with the industry through advisory boards, which serve as a reality check and a lifeline to the working world. I have employed Loyalist students on a regular basis ever since I was in a position to do so.
