

Advanced Manufacturing Skills Certificate Program

In today's global economy, the manufacturing industry must strive to remain current – addressing technology changes, greater competitiveness, increased customer demands and the rising demand for workers with advanced skills and technical knowledge.

To meet the challenges, Loyalist Training and Knowledge Centre has partnered with Quinte Manufacturing Association and Quinte Economic Development to deliver a 10-week manufacturing skills training program.

Participants will gain skills for employment in manufacturing and supply chain facilities, including:

- quality assurance
- operator preventative maintenance skills
- industrial health and safety
- communication and team skills
- lean manufacturing and continuous improvement

START DATE: June 6, 2011

DURATION: 10 weeks

COST: \$8,900 + HST

FUNDING ASSISTANCE MAY BE AVAILABLE IF YOU REGISTER BY MAY 13, 2011.
