

What do North America's top broadcasters and industry manufacturers have in common?

They're waiting to hire you.

What do Loyalist and other Ontario colleges NOT have in common?

A Broadcast Engineering Technology program.

Having completed their placements with employers such as **CBC, CHUM, Corus Entertainment, CTV, Rogers** and **Sony**, our graduates will be ready to fill the great demand for qualified broadcast engineering technicians of the radio, television and new media industry.

Broadcast Engineering Technology is a three-year advanced diploma program unique to Loyalist in Ontario. It is fully accredited by the Society of Broadcast Engineers in the United States.
